4TH GEN

A NEW GENERATION OF STRENGTH

BY AUSTIN HARDWARE & SUPPLY, INC.

INDUSTRIAL SPRAY ADHESIVES

Discover the unique line of 4th Gen industrial strength spray adhesives. We aim to become a leader in the spray adhesives market with quality products for various uses and applications. These 100% non-flammable industrial products outperform without compromising time advantages.

No other product on the market compares to the 4th Gen's strength and reliability. Available in canisters and aerosols, our reliable formula is the adhesive solution you need if you are looking for a non-flammable, low VOC, high temp product that is high-strength and quick bonding.

4TH GEN NON-FLAMMABLE SPRAY ADHESIVE

Our adhesive is a completely non-flammable, non-methylene chloride canister adhesive. Multi-purpose with an excellent bond to unsanded melamine, difficult-to-bond foams such as memory foam and polyurethane foam, and many other substrates.

Advantages:

- Non-Flammable
- Non-Methylene Chloride
- High Heat Resistance.
- Lowest VOC content of Non-Flam, Non-Methylene Chloride Adhesives
- 100% Adhesive Transfer to substrate
- Fully Portable System
- Heat Resistance up to 200F/94C

Application Tools:

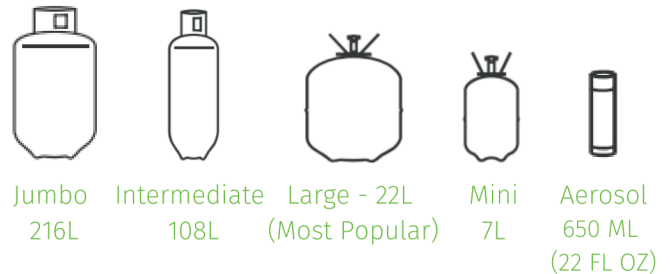

- Hoses: M180
- Application Gun: M120
- Recommended Tips: 11001B or M201

Available Sizes:

- Mini - 7L
- Large - 22L
- Intermediate - 108L
- Jumbo - 216L
