# FAST-CON®

Installation Guide

Application example: mobile panel with structure

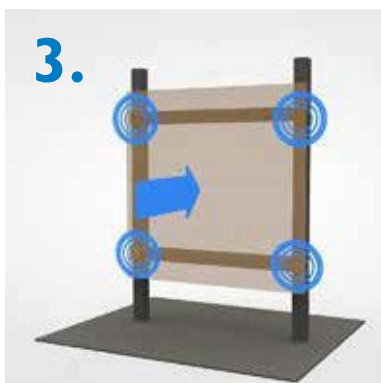

Front view

Side view

1. Fasten the female **FAST-CON®** on the structure by screwing, gluing, riveting.

2. Insert the **centering device** into the female clips.

3. Position the panel in the desired point and exert slight pressure. The marking will act as a reference for fixing the male part.

4. Secure the male part at the markings
