

Easy Open Vent NEW Small Version

NEW

Introducing the Easy Open Vent – Small Version, a compact and highly efficient solution tailored for package delivery vehicle manufacturers. Designed to replicate the functionality of its predecessor while providing superior durability and performance, this vent is now in production and ready to meet your ventilation needs.

With a proven track record in the industry, this product offers reliable airflow solutions for specific applications such as package delivery vehicles (e.g., UPS trucks). The Easy Open Vent – Small Version is constructed from raw aluminum, ensuring strength, durability, and long-term performance under demanding conditions.

Features & Benefits:

- » **Purpose-Built Design:** Perfectly sized for package delivery vehicles, ensuring optimal airflow and compliance with industry requirements.
- » **Durable Construction:** Made from high-quality raw aluminum for long-lasting performance.
- » **Industry Standard Replacement:** Matches the original dimensions and specifications for seamless integration into existing systems.
- » **Reliable Supply:** With former manufacturers exiting the market, our production ensures continued availability of this critical component.

PART #EOV-ALP-S

Additional sizes are available to meet a variety of application needs.
